

VISITOR TO CITY IS KILLED BY CAR

An inquest will be held today at the District Court over the body of Augustus Van Deventer, sixty years old, of Plainfield, N. J., who died last night at Casualty Hospital as the result of injuries sustained when he was struck by a street car of the Capital Traction Company at the eastern side of the Union Station plaza.

Mr. Van Deventer had been consulting records at the Library of Congress for the past week, and was on his way from the library to the home of Barry Mohun, 1417 Massachusetts avenue northwest, when the accident occurred.

Witnesses to the accident told the police that the car swung out while rounding the curve at Massachusetts avenue and E. streets and struck Mr. Van Deventer's head, inflicting a fracture of the skull. He did not regain consciousness.

He is survived by two daughters and one son, who is serving in the army.

German Replaces Ghost And Goblin as Terror Of Childhood's Dreams

LONDON, March 17.—The worst thing to dream about in a German is the German, arrogant, brutal, and over-bearing as he showed himself through the war, has taken the place of the ghost, goblin, and banshee of children's dreams.

This interesting fact was obtained by Dr. C. W. Kimmins, of the Child Study Society, who has records of 5,000 dreams of children. Generally the children dreamed, he said, of an objectionable man—generally a German—pursuing them and ill-treating them. They also had a persistent fear of an old man who followed them and persisted in buying them sweets.

Dr. Kimmins said he found that some soldiers suffering from shell shock had completely recovered after treatment based on diagnosis of the mental trouble revealed by their dreams.

A. E. F. MEN TO GET SCHOOLING ABROAD

Comprehensive plans for the education of the members of the American Expeditionary Forces is revealed in a general order published by General Pershing under date of February 13, received here.

The order establishes a system of post schools which provides elementary and secondary instruction for all soldiers in need of such instruction, in order that the soldier may return to the United States prepared to take an active and intelligent part in the future progress of the country.

For more advanced training division educational centers are established in each army, corps and division and in each section of the service of supply. The number of students is limited in each division educational center to 15 per cent of the command and the courses provide a minimum of five hours' instruction and supervised study per day five days in the week covering a period of three months. School officers and instructors are excused from all other military duty.

In addition to these schools, selected men of high educational qualifications have been given the privilege of attending French and British universities during the current spring term which will terminate June 30. Soldiers thus selected will be paid \$2 per day for subsistence and \$1 per day for lodging, but must agree to remain for the full term. Men enrolling for the educational centers will have the option of returning to the United States with their organizations or remaining to complete the full term of three months.

TORE DEAD HORSE WITH HANDS TO GET FLESH

NEW YORK, March 17.—How women refugees in the Caucasus were seen stripping the flesh from a dead horse with their hands and eating it is told in the report of Dr. James L. Barton, chairman of the committee sent recently for an investigation of conditions in the Near East. Thousands of men, women and children are starving, he reported. There is no bread anywhere, he reports.

"Another week will score 10,000 lives lost! For heaven's sake, hurry!" he appeals.

JAPS AGGRESSIVE IN TIENTSIN CLASH

American army men and not marines were involved in the recent clash with Japanese at Tientsin, China, dispatches received here appear to show.

General Barnett, commanding the marine corps, doubted the report from the first, because, he says, there were not 200 marines—the number mentioned in the original dispatch—in that district.

A Peking dispatch says that it was first thought that the Americans were responsible for the trouble, but later developments indicated that the Japanese were the aggressors.

Two Americans, the report says, were found lying almost naked in the yard of a police station. They were begging for water. After some difficulty the Japanese were induced to send one of them to a hospital. The other man was finally released.

The American consul was stoned by the Japanese as he drove away from the jail, the report says.

Americans were attacked by Japanese when they entered a theater on Thursday night. The French police dispersed the Japanese.

THREE MORE ATTEMPTS ON THE LIFE OF LENINE

COPENHAGEN, March 17.—Nikolai Lenin, Russian Bolshevik premier, continues to be the target of malcontents. A Moscow report says that within the past two weeks three attempts have been made on his life. On Saturday shots were fired at him, but he escaped unhurt. His chauffeur was slightly wounded.

MAKE OLD SHOES WEAR LIKE NEW

"I had Neolin Soles put on my shoes—wore these shoes every day for fifteen months, then had Neolin half-soles put on. They are still in good condition," writes F. T. Evans, of Seattle, Washington.

This is cutting shoe bills down to the minimum through Neolin Soles. Anyone can do this if he will follow Mr. Evans' example, and have his shoes re-bottomed with Neolin Soles. These tough, durable soles cost no more than soles that give only ordinary wear. And all good repair shops have them.

Neolin Soles come on new shoes, too—in many styles for men, women and children. They are created by Science to be all that soles should be—comfortable and waterproof, as well as long-wearing. They are made by The Goodyear Tire & Rubber Co., Akron, Ohio, who also make Wingfoot Heels—guaranteed to outwear any other heels.

NEW CHIEF OF U. S. AIR SERVICE

BRIG. GEN. WILLIAM MITCHELL, who has been appointed to succeed Maj. Gen. William L. Kenly as director of military aeronautics of the army. General Mitchell was an aviator before the war when the service was under the Signal Corps and virtually all of his duty in the army has been in the aviation branch.

BRITAIN BUILDING 900-FOOT WARSHIP

LONDON, March 17.—Britain's "mystery" ship now in course of building, and which will outstrip any warship so far constructed, is the subject of much comment in naval circles.

Details have been lacking up to this time. It is stated in the Daily Express that the warship will be 900 feet long, or twice as long as the American battleship New Mexico. It will have a speed of 32 knots, against the 21 knots of the New Mexico.

Every late war-time invention and appliance known to marine experts will be on the "mystery" ship. This will include inventions to protect her from mines and torpedoes.

It is announced that the warship will be launched in about six months.

DR. YANES NOT TO RUN FOR VENEZUELAN PRESIDENCY

Dr. Francisco J. Yanes, assistant director of the Pan-American Union, announced today that under no consideration would he become a candidate for the presidency of Venezuela.

Latin-American advisers spoke of Dr. Yanes as a possible candidate of factions seeking the overthrow of Dictator Gomez. The anti-Gomez element claims that it is entitled to the support of the United States, and it is believed Dr. Yanes was mentioned because it was thought his candidacy would meet Washington's approval.

Dr. Yanes asserted, in flatly denying presidential aspirations, that his attention is devoted wholly to the Pan-American movement.

FIGHT BAKER FOR DEMOTING ANSELL

Enemies of Secretary of War Baker do not propose to miss an opportunity to use the demotion of Lieutenant Colonel Ansell as a weapon against him, it appeared certain today.

Colonel Ansell was recently returned to his pre-war grade along with several hundred other officers.

Because his demotion was announced shortly after he had criticized the adjudication of certain court-martial cases by the judge advocate general's office, friends of Ansell claim the demotion was to chastise him.

During the war Colonel Ansell held the rank of brigadier general.

The charges against the court-martial were answered by General Crowder. His statement was made public by Secretary Baker. Colonel Ansell then died with Secretary Baker a detailed statement. Senator Chamberlain, chairman of the Senate Military Affairs Committee, has requested the Secretary to make public Colonel Ansell's statement.

COMMERCIAL CLUB WILL HEAR LENROOT ON LEAGUE

Senator Irvine L. Lenroot of Wisconsin will be the speaker at the club night dinner of the Commercial Club at the clubhouse at 6 tomorrow evening.

The subject of Senator Lenroot's discourse will be "Some Suggested Amendments to the Proposed Constitution of the League of Nations."

The league of nations is the all-absorbing issue before the world today, and the Commercial Club feels that they have a speaker and a subject for their Tuesday club night dinner that will interest every member of the organization. Members of the club may invite a guest or two.

Among those who will be present are two of the three newly elected honorees comprising heads of the city's present form of government, Col. C. W. Kutz and W. Gwynn Gardiner. A previous engagement will prevent the attendance of Commissioner Louis Brownlow.

SERBIA WON'T RECOGNIZE ITALY'S ENVOY; RECALLED

PARIS, March 17.—The new Italian minister to Serbia has been recalled, because of the refusal of the government to recognize his credentials. They were addressed to the King of Serbia instead of Serbia, Croatia and Slavonia combined. So far, America is the only nation that has recognized the tripartite as an entity.

The status of the tripartite will be discussed by the supreme council, it is said.

A statement has been issued by the Yugoslav committee here calling attention to grave disturbances at Spalato, Dalmatia, in which Italian sailors engaged in riots with the inhabitants. Several persons were killed. The inter-allied commission is asked to make an inquiry.

TEN PERSONS DIE IN MISSISSIPPI TORNADO

VICKSBURG, Miss., March 17.—Ten persons were killed by the tornado which swept this section yesterday. They included J. W. Johnson, a wealthy planter, seven negroes and two white men of Moorhead, Wash. Outcrops have prevented the operation of trains on schedule for the past twenty-four hours.

JEWISH CANTOR GIVES RECITAL

A striking and most interesting example of the national and religious music of a people was given in the recital of Josef Rosenblatt, the Jewish Cantor, who is a Russian, and who brings to the concert stage ritualistic music unfamiliar to the world outside the orthodox synagogue. With his long beard and cap he looks a part of the religious ceremony rather than an artist before the public.

This famous church tenor, in his recital at the Belasco Theater yesterday afternoon, displayed a vibrant and powerful voice that does not fall into the category of the average singer. It is, in fact, the place of the "Cantor" in the orthodox Hebrew ritual to sing all the solo music of a service, supported by a chorus choir. The evolution of the Cantor has brought about music that falls into the full quartet range—from base to soprano—all sung by the same voice. Thus it is that in full-throated chant Cantor Rosenblatt sang the "Bitt Bill," or again carried this wail to a high and soft falsetto. He uses in this high voice the facility of a coloratura soprano, with astonishing trills and runs, that found the freest expression in his own composition, prayer, "Wcholimamin," his first encore.

Expressive more fully of the people were the "Ov Horaminim," by the singer, and his second encore, the old Jewish music "Scholfer shel moshich," by Goldfaden, which translated, means "On the Tombstone of Mother Rachel." Inquiring why a real folk song terminated this "miserere" of grief, the answer was that it expressed joy at the deliverance of the soul.

There is full-voiced splendor in this tenor voice, but the chant brings a harshness, with guttural articulation, that needs a great church for the full dignity of its message. As singer of concert music, Cantor Rosenblatt gave effectively an aria from Bizet's "Pearl Fishers," and with most unusual vocalization for the male voice, a Rossini aria, "La Danza," in the spirit of "Figaro." He also sang a Yiddish folk song and a Russian "Lullaby" of Gretschinoff.

Stuart Ross was a most sympathetic accompanist, whose music to the ritual was largely improvisation, very artistically done. He also played several piano solos, with a brilliant but rather hard tone. His technique was good, but he was not always accurate. He gave as an encore the "Butterfly Etude" of Chopin, F major. The final concert of the Ona B. Talbot Fine Arts Enterprises will be given on Easter Sunday by Livitski, pianist. J. MacB.

"SOVIET!" SHOUTS CROWD AT SENATOR FRANCE

NEW YORK, March 17.—"What better government do you want than that your fathers wrought?" asked Senator Joseph I. France of Maryland in an address here last night, at the Church of the Messiah.

"Soviet, soviet!" several men and women shouted.

Senator France advocated repeal of the espionage act. "We already have had one revolution, and violence is not necessary in the reconstruction period," he said. He advocated "a political philosophy to protect us against the tyranny of the uncontrolled majority."

"DANDERINE" FOR FALLING HAIR

Stop dandruff and double
beauty of your hair
for few cents.

Dandruff causes a feverish irritation of the scalp, the hair roots shrink, loosen and then the hair comes out fast. To stop falling hair at once and rid the scalp of every particle of dandruff, get a small bottle of "Danderine" at any drug store for a few cents, pour a little in your hand and rub it into the scalp. After several applications the hair stops coming out and you can't find any dandruff. You hair appears soft, glossy and twice as thick and abundant. Try it!

DON'T FUSS WITH MUSTARD PLASTERS!

Musterole Works Without the
Blister—Easier, Quicker

There's no sense in mixing a mess of mustard, flour and water when you can easily relieve pain, soreness or stiffness with a little clean, white Musterole. Musterole is made of pure oil of mustard and other helpful ingredients, combined in the form of the present white ointment. It takes the place of mustard plasters, and will not blister. Musterole usually gives prompt relief from sore throat, bronchitis, tonsillitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frost-bitten feet, colds of the chest (it often prevents pneumonia), 30c and 60c jars; hospital size \$2.50.

MUSTEROLE
WILL NOT BLISTER

DEAR FOLKS:

THE workman I met the ofttest at the Wilson & Co. plant, Chicago, was the day watchman. He is the Sentinel on Guard—and he is an active, intelligent, happy and proud Sentinel. Do you know why? I'll tell you.

Up to three years ago, this watchman looked upon himself as a mere machine. He felt that he occupied a menial position because he was treated as a menial. Nobody apparently thought him worth while. Every day was the same to him. Nothing happened between sunrise and sunset to relieve the monotony of his life. He was discouraged as most workers are who do not get kind words or attention.

But a new hold on life came to him three years ago this month and it was all brought about through a little act of kindness. My, how a small courtesy changes things for all of us! It dispels clouds and floods our pathway with sunlight. Let me tell you what the watchman told me.

"The day that Mr. Wilson came here to take charge of the business which had been given his name, what do you suppose was the first thing he did? Why, he came to my shanty, shook hands with me and said, 'John, I want you to know that I think you are holding a very important position. I look to you to watch things very carefully. So much depends on you. If you will put your heart in your work and help me all you can I will be very grateful. From now on you are going to be a right arm to this business. I need your help to make it a success. I hope we will be good friends. What do you say?' And, of course, I said, 'I'll help and I thank you so much for thinking that I can help you.' From that time on, I have been very happy. I am very proud of the position I hold. Mr. Wilson always speaks to me and shows that he likes me. I am just the average human being and when a man respects me and treats me right, it makes an awful lot of difference in my view-point of life. I feel that I am now a real man doing work that is necessary and helpful."

John and I got along fine together during my daily visits to Wilson & Company plant covering a period of five weeks. We had many a chummy chat. He introduced me to many of the workers, all of whom respect him. He dresses in a blue uniform and stands guard with as much pride as the Commander of a U. S. Warship stands on the bridge of his ship. This is the sort of spirit that makes a business prosper.

Another worker—this one a young woman—told me that the courtesy shown the watchman by Mr. Wilson was witnessed by hundreds of workers who were standing at the windows of the big office building watching for his coming. She said: "I can't describe to you the wave of satisfaction that immediately struck us all. Instantly the word went all through the plant that Mr. Wilson's first act was to visit the watchman, and the cry went up in all departments, 'A real man has come to lead us; now we can put heart in our work; now we are sure of appreciation; now we know we will get a square deal.' You have no idea what a change was brought about at once. We went to our work with lighter hearts than we had ever had. We went to our work with the feeling that we must do it well from then on and we have been doing it well ever since. Mr. Wilson visited all of us later on and let us know in his kindly way that he wanted us to help him and that he would appreciate it very much if we gave him our loyalty and enthusiasm. It was new to us to be talked to in this friendly way. You can imagine how happy it made us all feel." Don't tell me that little things do not make up the sum of life, for they do. Don't you recall the old saying, "Little things, aye little things make up the sum of life; a word, a look, a single tone may lead to calm or strife." The words, the looks, the tones in Wilson & Co. plant lead to calm and happiness. In my next letter which will appear in this newspaper, one week from today, I'll tell you other things that prove how Heart in work leads to contentment and success.

Sincerely, William C. Freeman,
131 E. 23rd Street, New York City.
